WORK EXPERIENCE

Sciencia AI

Jan 2026 – Mar 2026

UX Designer Intern

Palo Alto, California (Remote)

- Analyzed 4+ AI annotation platforms to identify UX patterns and workflow differences (Labelbox, CVAT, SuperAnnotate, SageMaker)
- Identified usability gaps and translated complex annotation workflows into clear UX insights through workflow mapping and pain point analysis

Freelance

Aug 2021 – Aug 2024

Graphic Designer

Pittsburgh, PA

- Designed visual systems for digital and event-based experiences, improving clarity and audience engagement across different formats
- Created illustrations for a community-based digital storytelling event with Ambassador for Christ Inc., supporting narrative clarity and engagement

University of Pittsburgh

Aug 2019 – Jan 2021

Computer Lab Monitoring

Pittsburgh, PA

- Supported 100+ users by diagnosing and resolving technical issues, improving overall user experience in a shared computing environment
- Identified recurring user pain points and provided solutions across hardware, software, and system workflows
